

# A New Three-Way Herbicide with "Four-Way" Activity

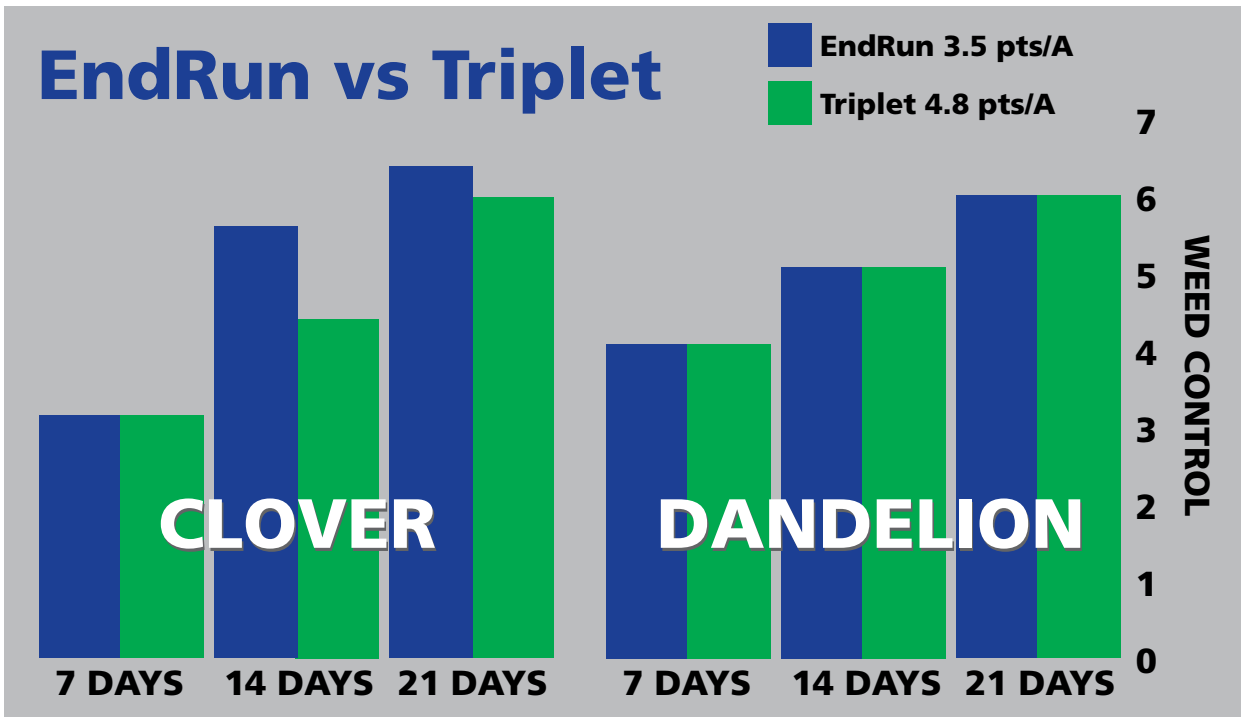

**ACTIVES**

**2,4-D • MCPA • Dicamba**

EndRun offers the same or better weed control as Triplet®, but it contains less active ingredients. EndRun controls Dandelion, Clover, Knotweed, Henbit, Chickweed, Plantain, Spurge and many other broadleaf weeds.

Plus, it's pre-loaded surfactant system improves plant uptake, increases spreading and wetting on the leaf surface and reduces spray bounce, which helps make sure the spray mix stays where it is applied.

## Research Trial: EndRun vs Triplet

EndRun is a trademark & People...Products...Knowledge... is a registered trademark of Helena Holding Company. Triplet is a registered trademark of NuFarm. Always read and follow label directions. © 2006 Helena Holding Company.
